# YOUR GUIDE TO THE

## KEY

A Round-5 structure designed to be extra durable.

A Terrain Effects addition designed for modular elevation.

A Terra Forms addition designed for climbing.

A Themed structure designed to complement a specific inspiration.

A Toddler Series structure designed for the smallest of us.

An Inclusive structure designed to include everyone!

A Net Effects exclusive structure designed for multiple climbing experiences.

An NFuse structure designed to be modular to multiple components.

A Round-3.5 structure designed for smaller sites & budgets.

# OUR COMMITMENT TO YOU

When working with Playcraft Systems, we offer peace-of-mind turnkey solutions for your next playground project. Our knowledgeable consultants will work alongside your team every step of the way to verify we meet or exceed all of your project's requirements. From the initial budgeting phase all the way to the grand opening and beyond, Playcraft is there to assist you in making your playground project a reality.

A child in a wheelchair is seen from behind, with their arms raised in a gesture of joy or freedom. They are positioned on a playground structure, looking out over a park at sunset. The sky is filled with warm, golden light and scattered clouds. In the background, there is a green and white gazebo-like structure and other playground equipment. The overall mood is one of hope and accomplishment.

LET'S  
IN  
PLAY

Over 30 years ago we set out to make the best commercial playgrounds the world had ever seen. To do that, we knew we would have to raise the bar on the level of craftsmanship. Our hand finishing, thicker coatings, attention to detail and installation excellence mean communities don't have to spend time worrying about durability, but instead can just concentrate on play and their children developing life skills on the playground. Play is everything to a child. Creating the best playgrounds for them is everything to Playcraft.

# THE IMPORTANCE OF PLAY

PLAY IS CRUCIAL IN A CHILD'S LIFE, IT:

- ▣ Serves as a physical challenge.
- ▣ Develops cognitive skills.
- ▣ Offers a way to make new friends.
- ▣ Expands the imagination.

A PLAYGROUND CAN SERVE A LARGER PURPOSE. A WELL-DEVELOPED PLAYGROUND:

- ▣ Helps bring communities together.
- ▣ Provides a safe location for families to gather.
- ▣ Is a place to interact and make new bonds.
- ▣ Serves as a premier destination within that area for locals and visitors.

**CRAFTSMANSHIP** IS THE  
CORNERSTONE OF  
OUR COMPANY, BUILT ON A FOUNDATION OF:

- ▣ Sustainable materials.
- ▣ Innovative design.
- ▣ State-of-the-art manufacturing techniques.
- ▣ An unmatched playscape experience.

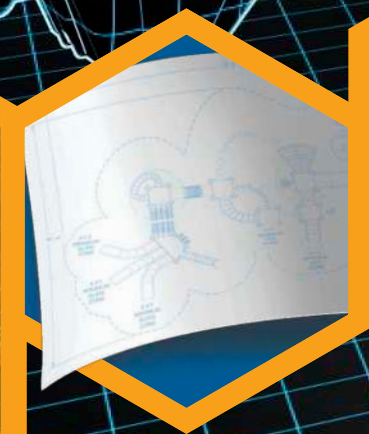

# ELEMENTS OF PLAY : DESIGN & ORDERING

OUR TALENTED PLAYCRAFT CONSULTANTS & DESIGNERS WILL:

- Assist with site evaluations.
- Factor in age-appropriate activities.
- Help choose design ideas & colors.
- Conform to time lines & budgets.
- Advise on important safety & compliance guidelines.

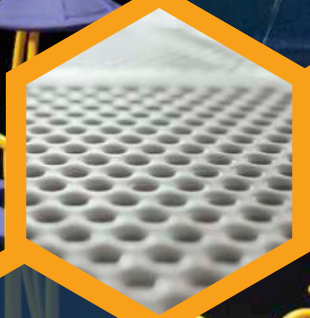

You have a dream and a vision! With our state-of-the-art PlayDesigner software we use all elements of play to make every shape, dream, and smile that you envision appear before your eyes.

# ELEMENTS<sub>of</sub>PLAY : DECKING & MOLDING

- Decking built with extra thick sheet steel & reinforced with doubled-up gusseting.
- Every deck is dipped in our super thick & durable Play-Tuff coating for maximum protection against wear & tear.

- Advanced technology used to create exceptional rotationally molded & HDPE (high density polyethylene) product.
- Components molded with extra thick double walls for durability.
- Edges on all plastic parts are rounded for safer, more comfortable play.
- Superior UV Stability & long lasting vibrancy.

# ELEMENTS<sub>of</sub>PLAY : FIT & FINISH

- Precision welded 11-12 gauge extra thick steel tubing for strength & durability.
- Electro-galvanized steel cut to exact specs.
- Robotic cutters & welders produce the smoothest welds & metal finishes in the industry.
- Every connection is mechanically filed & hand finished.

- Durable 11-16 mil thick polyester TGIC powder-coat finish (thickest in the industry).
- Exceptional corrosion resistance.
- Long-lasting color.
- Parts are phosphate-washed in a multi-stage bath & primer sealed thoroughly (not just welds) before its final coating.

# ELEMENTS<sub>of</sub>PLAY : SHIPPING & INSTALL

- Every part is checked for high quality consistency every step of the way.
- Comprehensive instructions, Playground Equipment Manual, & Maintenance Kit included with every shipment.
- Each piece is carefully bagged, wrapped & packed on custom wood pallets for prompt, safe delivery.

# LET'S MAKE PLAYGROUNDS

- ❏ **CREATE ACCESS:** Getting people to the play space is only part of the equation. Ensuring they have equitable play experiences when they get there is the key to success. Think about using ramps, and providing equitable ground level play opportunities to elements that may not be accessed by a ramp so everyone can have rich and diverse play opportunities.
- ❏ **KEEP IT SIMPLE:** Understanding how to use the play area should be intuitive and easy for all people.
- ❏ **ADD SENSORY ELEMENTS:** Think about touch, sight, sound, movement and other sensory elements when considering the mix of components to use.
- ❏ **ENCOURAGE SOCIAL EXCHANGES:** Children learn about each other when they communicate. Consider ways to add communicative elements into the play space to help encourage exchanges and adventures between children of all abilities.
- ❏ **PROMOTE CHOICE:** Children engage with play in different ways—some dive into action, while others prefer to observe first. A well-designed playground offers both active and quiet spaces, empowering every child to play at their own pace and comfort level.
- ❏ **OPPORTUNITY FOR ALL:** Inclusive playgrounds embrace diversity by offering a variety of play experiences. They ensure every child, regardless of ability or preference, has the chance to connect, play, and grow with their peers.

## DESIGNING FOR INCLUSION

Inclusive play begins with an understanding of each project goal. Our network of consultants and design team will collaboratively work with your playground committee to ensure every aspect and goal is achieved. We create play areas without separation and play experiences without borders while incorporating the existing opportunities of the available space and setting.

Ultimately, our design will create an environment to accommodate individual abilities yet provide an atmosphere where all children and adults can be themselves and join in the total enjoyment experienced throughout your playground.

# INCLUSIVE!

## THE IMPORTANCE OF INCLUSION

Inclusive design is a way of creating physical spaces and products to address the inherent diversity of people. It introduces flexibility, choice, and accommodating features to the world that we all inhabit.

Every child is provided with the right to play, but not every child is afforded the opportunity to do so. An inclusive playground:

- ❑ Breaks down barriers.
- ❑ Encourages personal growth.
- ❑ Creates new friendships.

**EVERYONE DESERVES THE OPPORTUNITY TO PLAY!  
THE ELEMENT OF PLAY STRENGTHENS THE BOND OF A COMMUNITY!**

# PLAYCRAFT'S PLAYGROUND Adventures

Powered by **AGENTS OF DISCOVERY**

## AVAILABLE NOW!

**CREATES ENHANCED PLAY  
OPPORTUNITIES FOR THE  
COMMUNITY!**

Playcraft Systems® has teamed up with Agents of Discovery® to create Playground Adventures™, an innovative, mission-based game where children (& their families!) become explorers on a playground journey, & slides, swings & climbers hold secrets to discover!

## HOW TO PLAY:

- 1** Download the Agents of Discovery® app from Google Play or the App Store.
- 2** Visit a **PLAYCRAFT** playground that has a **PLAYGROUND ADVENTURES™** sign.
- 3** Open the available mission and complete the challenges.

**HAVE FUN & EARN REWARDS!**

**INCLUDES  
CHALLENGES  
SUCH AS:**

- AUGMENTED REALITY INTERACTION**
- SOUND MATCHER**
- COLOR PICKER**
- DETECTIVE Q&A**

**AND MANY MORE!**

# FEATURED PLAYGROUNDS ■ REINHART VOLUNTEER PARK GRANTS PASS, OREGON

Reinhart Volunteer Park is a dynamic play space with diverse elements of play: including the innovative Thunder Dome (see page 95) and NFUSE modular components (see page 117). The park also marks the debut of our new Playground Adventures™, which combines engaging physical challenges & interactive experiences. Designed for a wide age range, it emphasizes inclusivity & social play, creating an environment where imagination & exploration thrive. This thoughtfully crafted playground fosters community connection & high-spirited outdoor recreation.

North Ridge Park in Coralville, Iowa, is a vibrant recreational hub featuring standout elements like the Hill Hopper & its Terrain Effects (see website for details), as well as the thrilling Ultra-Zip (see page 103). These innovative structures provide dynamic play opportunities, blending physical challenges with interactive fun. Designed to engage visitors of all ages, the park fosters social connections & active outdoor exploration.

# FEATURED PLAYGROUNDS

## SULPHUR SPRINGS PARK

CAMDEN, MISSISSIPPI

Sulphur Springs Park in Camden, Mississippi, features engaging play elements such as the Balance Flex Balls (see page 104) & the Spinmax Pod (see page 98). These innovative components promote physical activity & balance, offering fun & interactive play opportunities for all ages. The park is a spirited space designed to enhance social interaction & encourage exploration & community connection.

# FEATURED PLAYGROUNDS ■ JENSON FARM

## PARK DRAPER, UTAH

Jenson Farm Park in Draper, Utah, captivates visitors with imaginative play elements like the Spinmax Orbit (see page 98), & the towering Net Effects Optic XM Tower (see page 79). Seamlessly integrating themed elements, this park was honored as 2024's Imaginative Playground of Distinction for its creative design & engaging features that inspire imaginative play & social engagement.

Fall Height: 9' (2.7m)  
Use Zone: 55' x 54' (16.8m x 16.5m)

- Playcraft Systems' Round 3.5 Line is here to redefine playtime! Designed for smaller spaces or tighter budgets, this system delivers BIG on fun & versatility while maintaining the signature Playcraft quality you can count on.

### DROP LOOP LINK

(See Pg. 128)

### SURF RIDER

(See website for details)

### ANGLED NET LINK

(See Pg. 128)

- Crafted with the same extra-thick, electro-galvanized steel & powder-coated finishes as our larger systems, the R3.5 is built to handle anything kids throw its way.

- 3.5" diameter powder-coated posts with our exclusive, factory installed self-sealing precision die-cast aluminum post cap reduces water intrusion & potential for rust.

- Easily expandable, fully-modular designs ideal for smaller spaces, without compromising on fun or durability!

A playground can be both educational & challenging by blending fun with learning opportunities. Round 3.5 elements include thrilling slides & climbers that inspire confidence & have been crafted to deliver maximum excitement. They help to develop a child's balance, spatial awareness, problem-solving skills, curiosity, creativity & exploration.

SHADE CANOPY - HEX

(See Pg. 138)

ROCKER TRAVERSE

(See website for details)

POLY CLIMBER WALL

(See Pg.120)

Hot-blended color compounded plastic resins for all roto-molded plastic components, such as our slides, provide greater strength, superior color fastness & UV resistance.

# RISK MANAGEMENT

## ROTO-MOLDED CUSTOM SIGN

**1308** | 5-12 Age Appropriate  
(Many custom options available - Call to inquire)

Size: 1'10" x 3" (0.6m x 0.1m)

Also available in standard:  
**2-5 Age Appropriate - 1305**  
**5-12 Age Appropriate - 1306**

## HDPE SIGN

**1303** | 5-12 Age Appropriate

Size: 2'2" x 3" (0.7m x 0.1m)

Also available in:

**2-5 Age Appropriate - 1302**

(Many custom options available - Call to inquire)

## A: CUSTOM PRINTED SIGN

**1310-1** | 18" x 36"

Size: 2'3" x 3" (0.7m x 0.1m)

Also available:

**DOUBLE-SIDED - 1310-2**  
(Many custom options available - Call to inquire)

## B: CUSTOM PRINTED SIGN

**1309-1** | 18" x 24"

Size: 2'3" x 3" (0.7m x 0.1m)

Also available:

**DOUBLE-SIDED - 1309-2**

(Many custom options available - Call to inquire)

# BORDERSCAPE

## RECYCLED PLASTIC BORDER

540407 | Border Timber w/ Galvanized Steel Stake  
Size: 4'4" x 4" x 1' (1.3m x 0.1m x 0.3m)

Borderscape is the perfect solution to maintain playground safety & cleanliness by keeping loose-fill surfacing securely in place. Its durable, defined edges ensure surfacing stays where it belongs, reducing maintenance while enhancing the play area's appearance & safety, creating a polished & functional playground environment.

## ACCESS RAMP PACKAGE

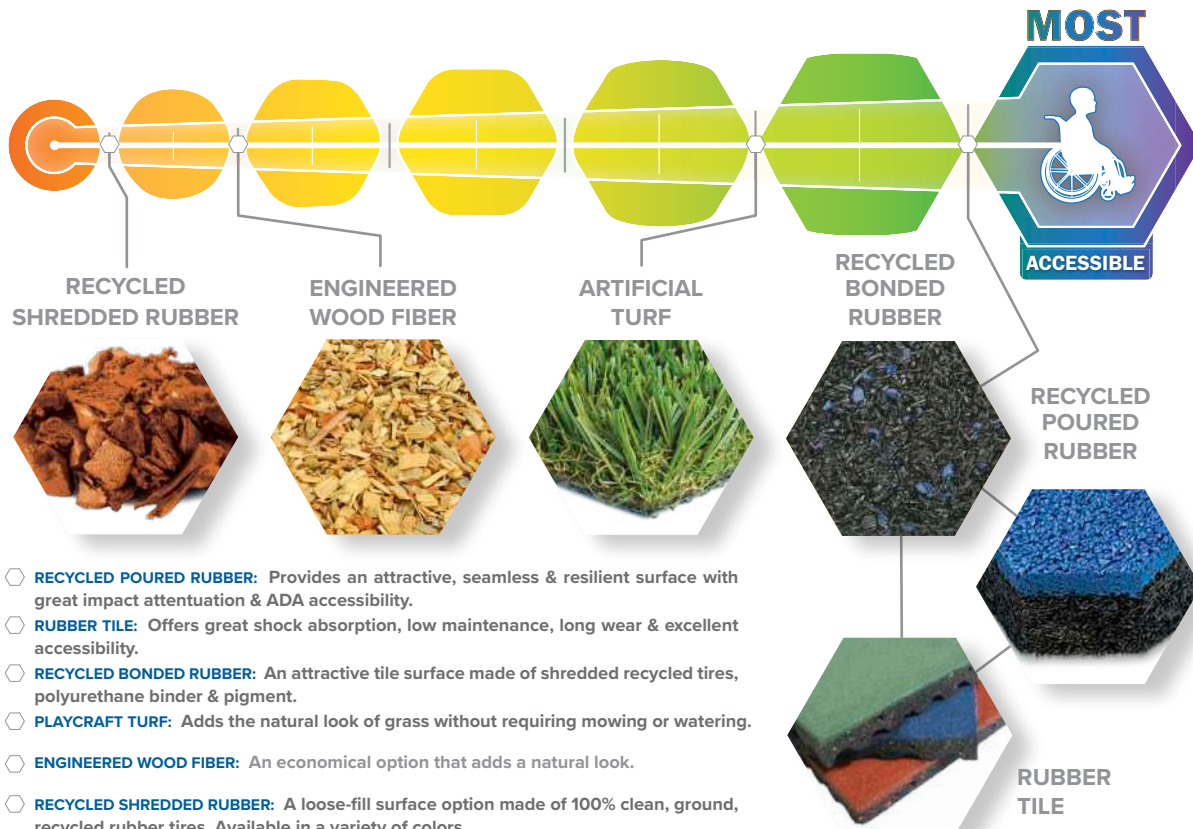

1205-2  
Size: 4'4" x 5' x 1' (1.3m x 1.5m x 0.3m)

# SURFACING

A cushioning ground cover such as recycled rubber should be maintained around all playground equipment to reduce the impact of accidental falls. Refer to ASTM F1292-09 guidelines for impact attenuation of the different surface materials available.

# COMPONENTS

Playcraft offers many different play event components ranging from climbers, to overhead events, all the way to roofs & toppers. Our expansive selection of components is designed to encourage & challenge children of all ages with a wide range of abilities.

**SPIRAL TUBE SLIDE**

## NIMBLE ARCH BAY BRIDGE

AGES 5-12

NFUSE | R5(only)  
Deck Heights: 96"

NFUSE modular components create versatile play events that can accommodate lots of children & easily integrate into any larger system. Connect interchangeable bays & extensions, or link between play systems to NFUSE new play opportunities.

### BAY w/ EVENT EXTENSION

Ages: 5-12  
Use Zone: 29' x 25' (8.9m x 7.6m)

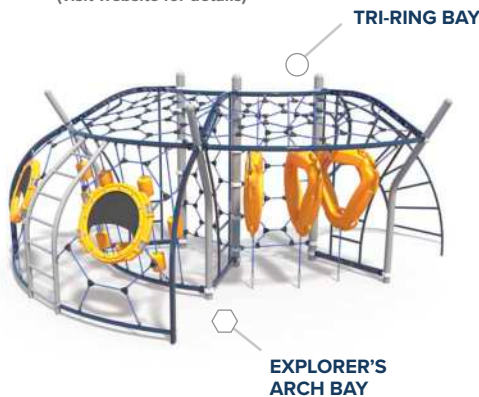

Many configurations available:  
(visit website for details)

### BAY w/ SLITHER CLIMBER EXTENSION

Ages: 5-12  
Use Zone: 30' x 27' (9.2m x 8.3m)

Many configurations available:  
(visit website for details)

TRI-RING BAY

EXPLORER'S ARCH BAY

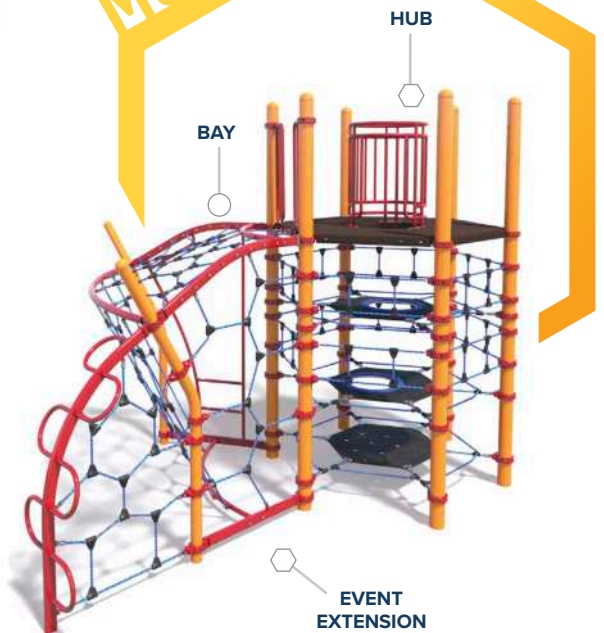

The Tri-Ring bay features a secured swaying motion from ring-to-ring. Children can travel across, transition through the rings, or navigate up to the topside of the bay for continued fun & exploration.

### TRI-RING BAY w/ EXPLORER'S ARCH BAY

Ages: 5-12  
Use Zone: 30' x 31' (9.2m x 9.5m)

Many configurations available:  
(visit website for details)

## FEATURES & HIGHLIGHTS:

- One-piece, perforated metal decks designed to fit securely to posts.
- Small hole holes help to prevent entanglement of small fingers & toes & provide comfortable access for wheelchairs.
- Extensive matrix of doubled gussets.
- Exclusive deck slot for flush-mount component attachment.
- Play-Tuff™ extra-thick textured coating for durability & additional traction.

# coloring<sup>by</sup>material

IMPORTANT: The colors shown are for illustration purposes only. Actual colors may vary. Contact your Playcraft Consultant for accurate color samples.

Playcraft offers one of the largest selections of material color in the industry, allowing your playground to meet any style when it comes to visual appearance.

Metal components receive a multi-stage powder-coating process with a highly durable protective finish unparalleled in the industry. The added texture effect of our Metaluxe powder-coat colors can add a soft and elegant look.

Our in-house state-of-the-art Play-Tuff coating process offers unmatched protection on decks and steps.

Our ultra-tough fabrics come in a wide variety of colors and provide superior protection from harmful ultra-violet rays.
